1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1 through 20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In each of the independent claims 1, 14, 19 and 20, it is not understood whether the claims are directed to a "charger" and a "control part" or include these elements in combination with an "endless conveyance belt" which is recited only in the preamble of the claims.

Claims 16 and 17 recite only functional language without clearly stating what element or elements perform the function. Accordingly, it is not clearly understood what structure is encompassed by these claims.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, 14 and 15 are rejected under 35 U.S.C. 102(b) as being anticipated by Hayashi.

See the abstract and column 2 line 65 through column 3 line 57.

5. Claims 19 and 20 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

6. Claims 2 through 13 and 16 through 18 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
